

LV Line Reactor For BESS

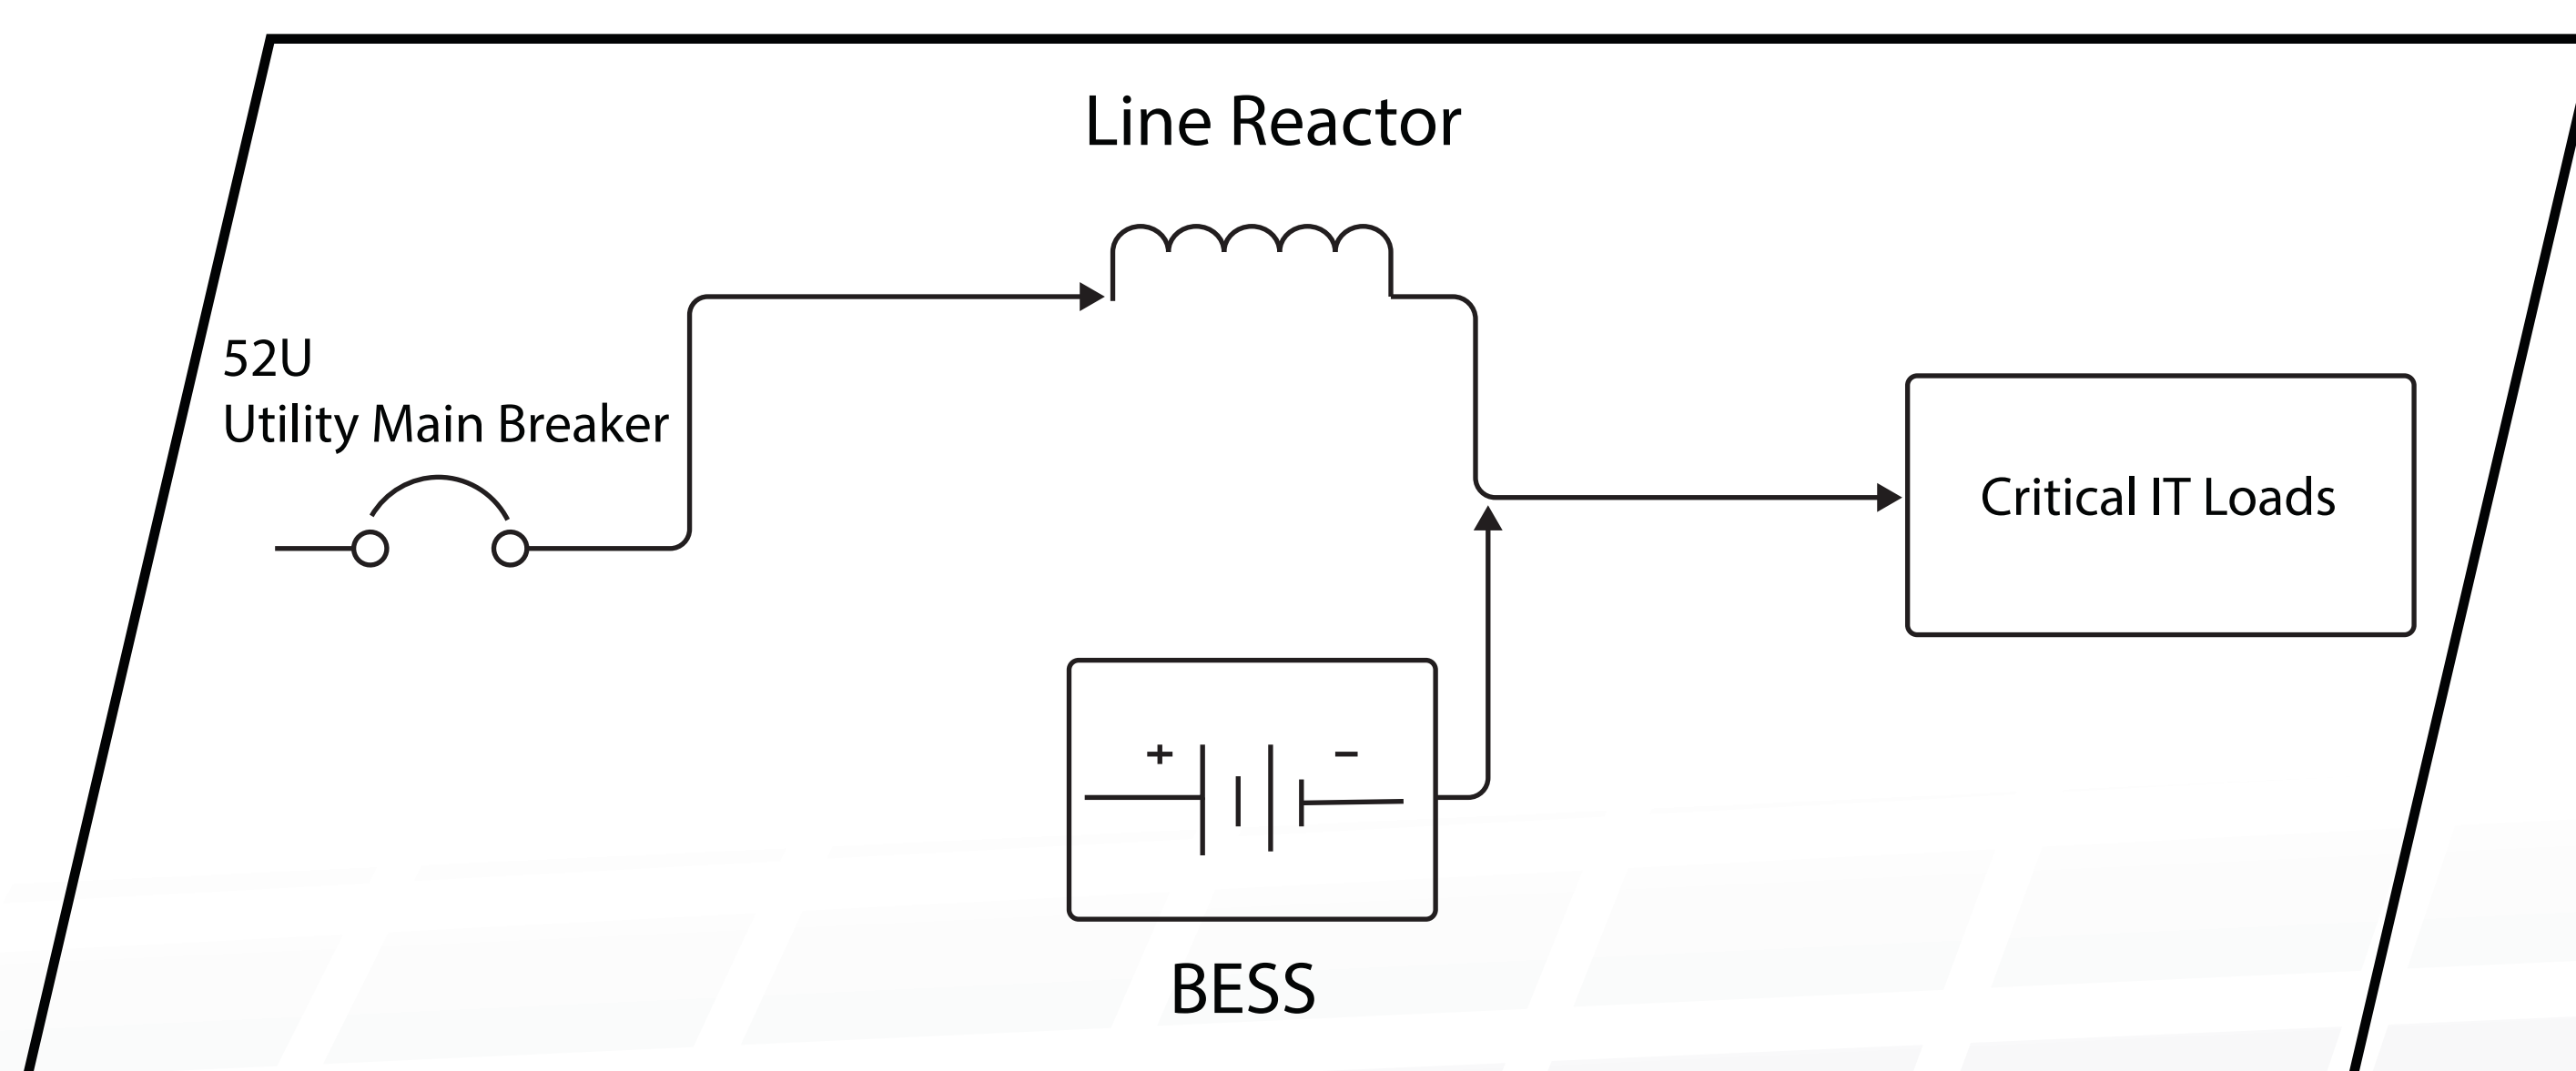

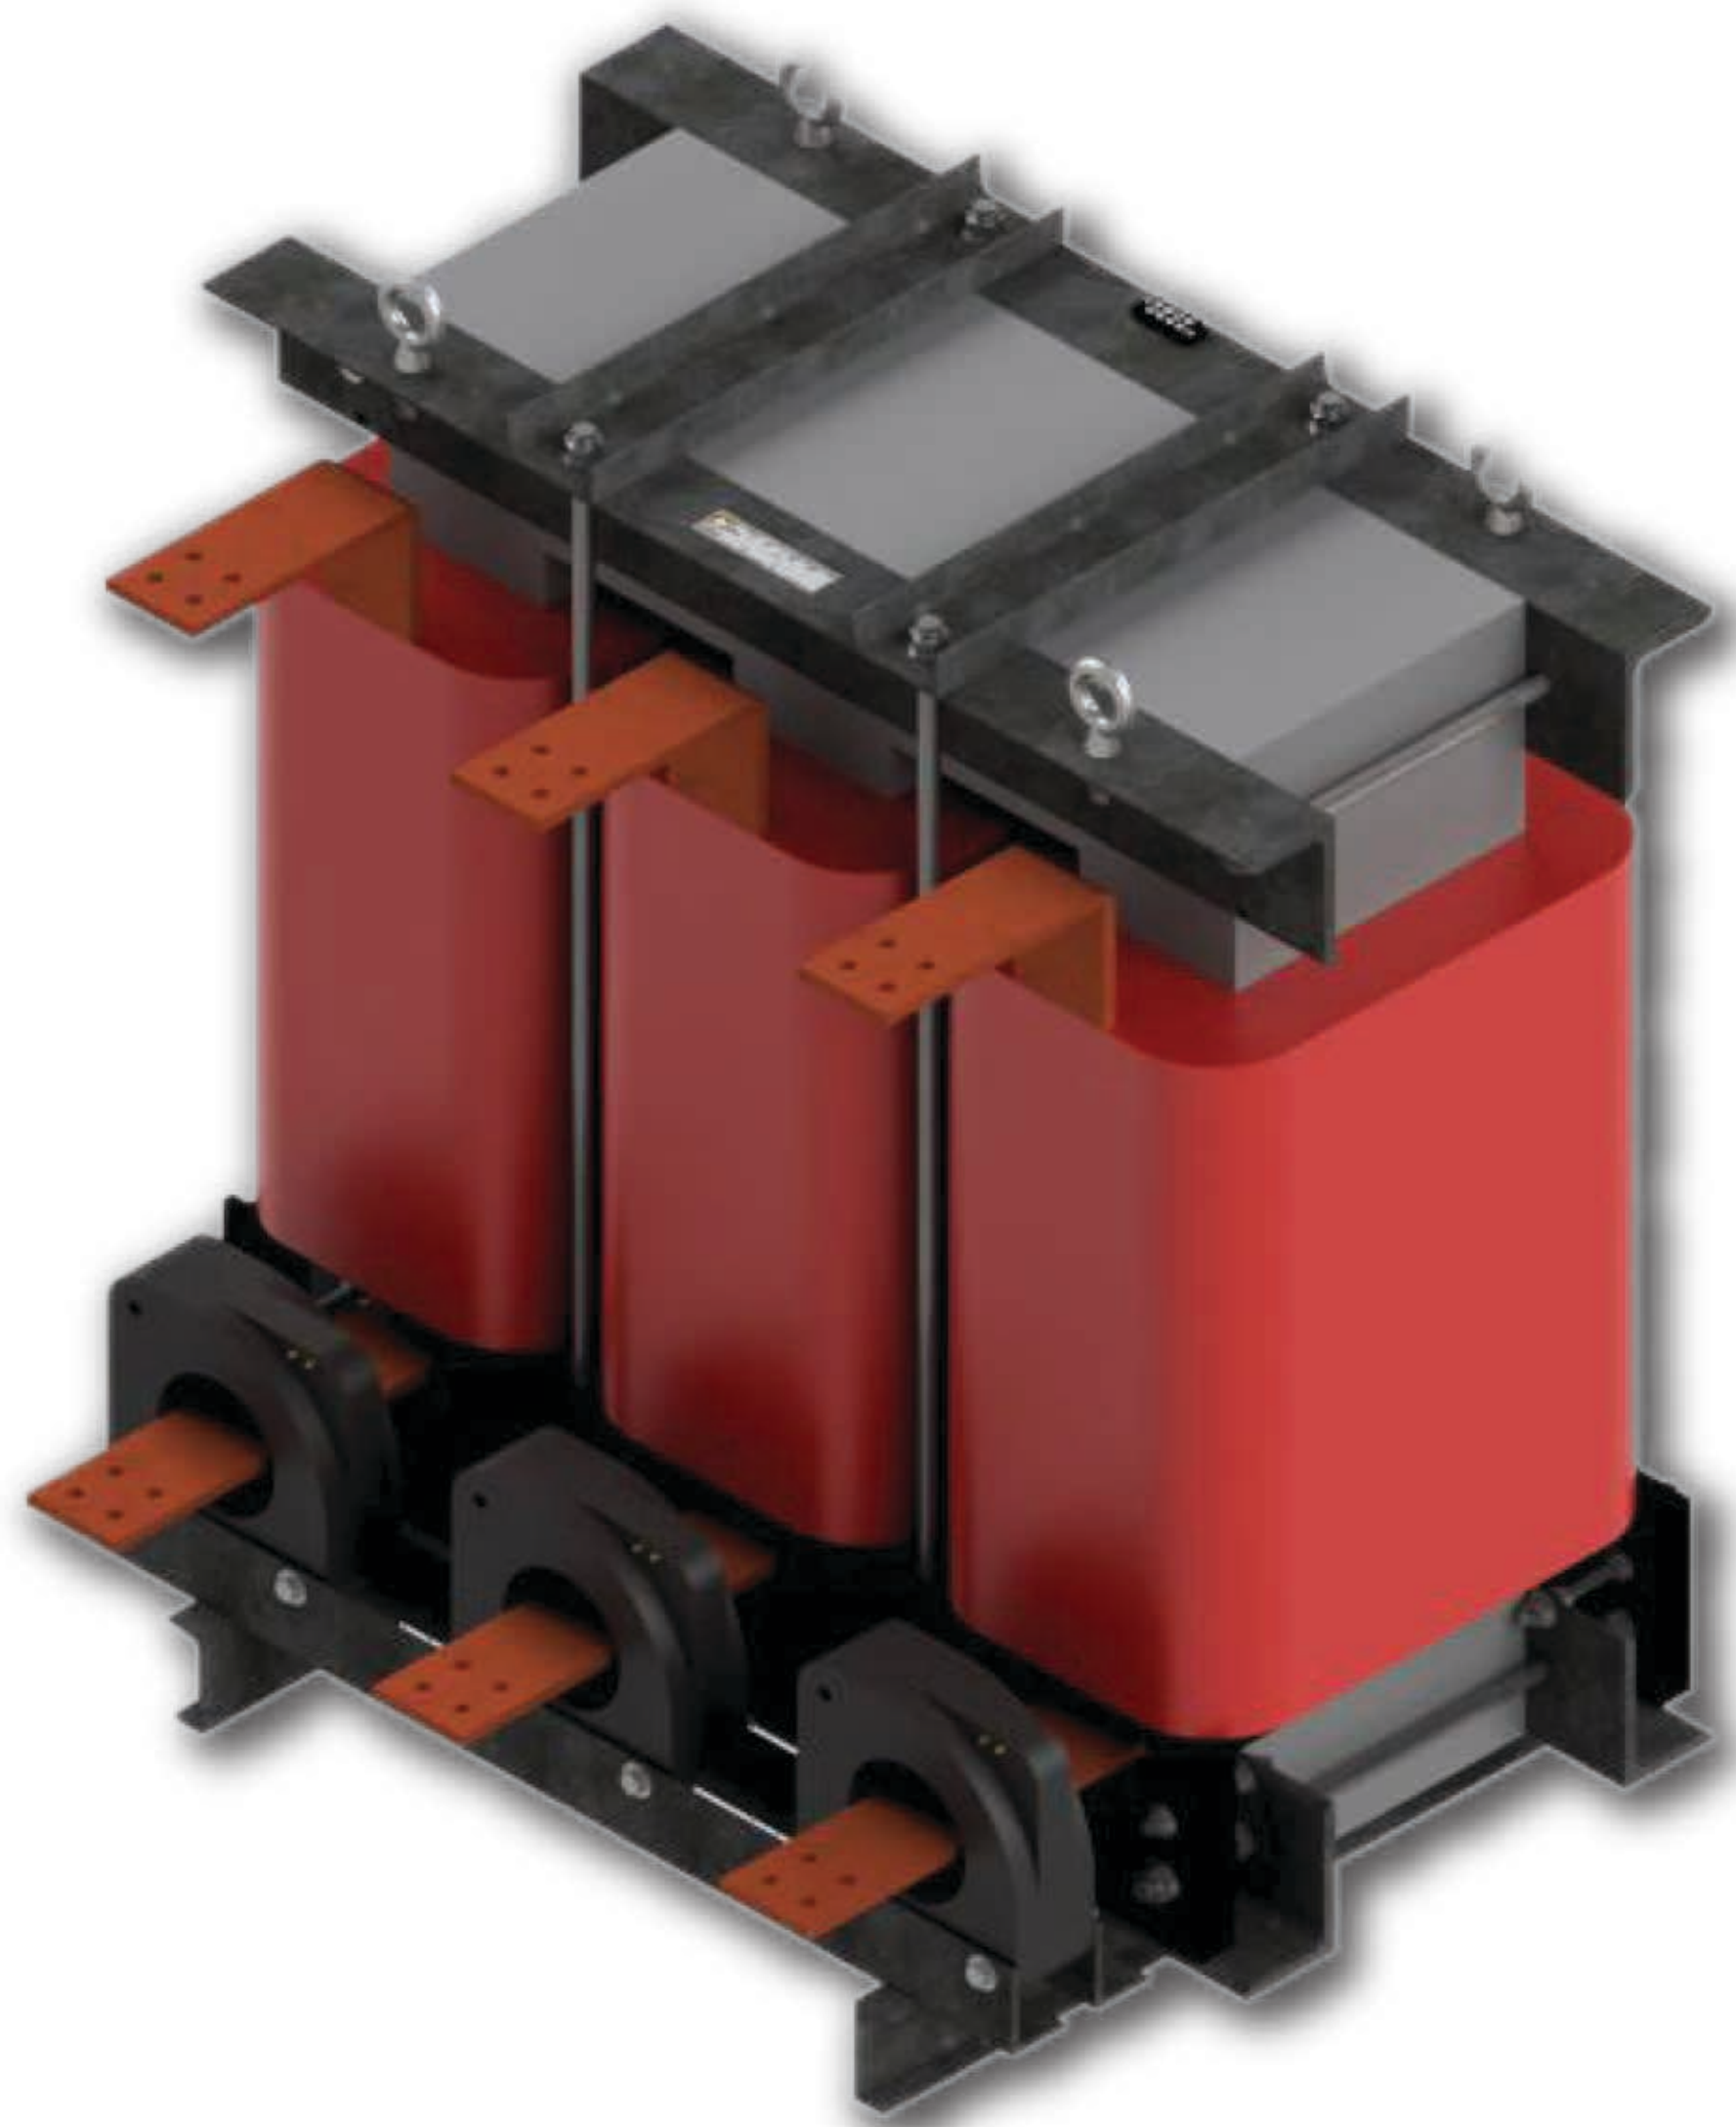

Critical Power Applications

Low Voltage Line Reactor Specs

- 480V 3Phases Dry Type Reactor
- .260 mHy @ 2,270 ARMS
- ISaturation: 3,000A
- With CT's and RTD
- 80 Degree Rise
- 1.4 MVAR
- 7000 Lbs
- Cu

Key Features

- 100% Made In USA
- Up to 45 kV System
- Quietest reactors on the market
- Custom engineered based on your specifications
- Can be Customized with CT's, PT's, and Temperature monitoring

MV Line Reactor For BESS

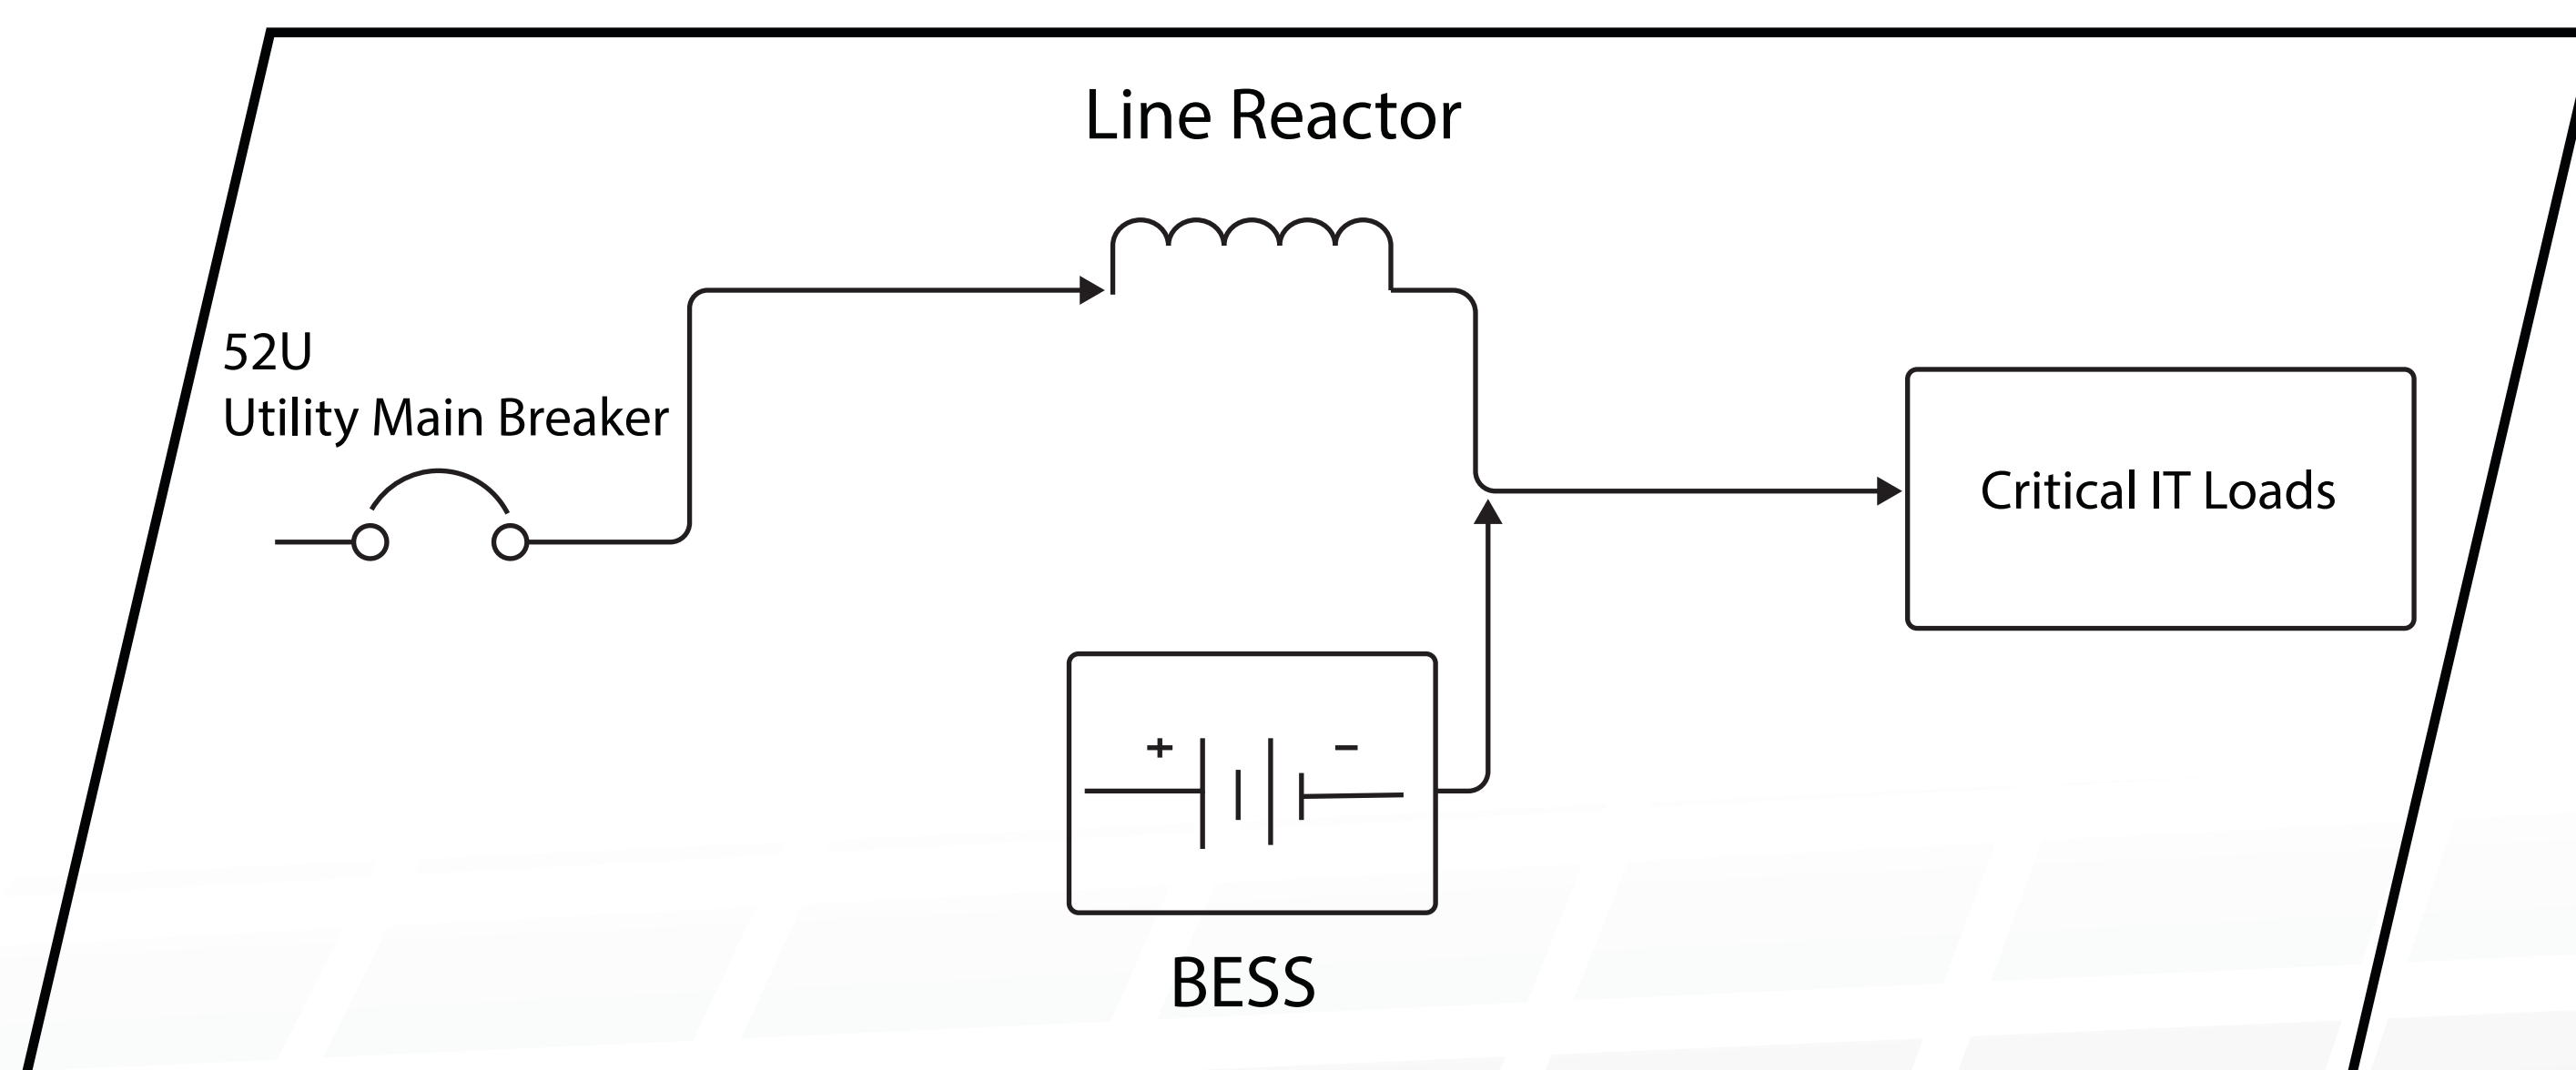

Critical Power Applications

Medium Voltage Line Reactor Specs

- 15k Single Dry Type Reactor
- .21 mHy @ 550 ARMS
- Al Windings
- 80 Degree Rise
- 2.4 MVAR
- 6200 Lbs

Key Features

- 100% Made In USA
- Up to 45 kV System
- Quietest reactors on the market
- Custom engineered based on your specifications
- Can be Customized with CT's, PT's, and Temperature monitoring
